

# LIFTING SLINGS

Meuwissen Gerritsen's lifting slings are manufactured from 100% polyester and comply with the stipulated NEN 1492-1 standard and EC Machinery Directive version 2006/42/EC. The polyester lifting slings are fully recyclable and thus also meet the highest environmental standards. In addition, all lifting straps include instructions for use on the label.

## Application

Lifting slings are indispensable for safely lifting window frames and facade, floor and roof elements. This allows products to be safely transported internally and externally. The lifting slings can be easily processed due to the flexible sling fabric and are available in various lengths and lifting loads.

## Benefits

- ✓ Available in different lengths and lifting loads
- ✓ Flexible to process
- ✓ 100% recyclable
- ✓ Highly resistant to alkaline influences
- ✓ Optional printing with text or company name
- ✓ Provided with a certificate
