

# MG TAFTEX®

## ALU TAPE

**TAFTEX® Alu tape is a single-sided adhesive tape for wind, air, water and vapour tight sealing of overlap seams and repairing damage. TAFTEX® Alu tape features a nonwoven making it very strong.**

### Application

TAFTEX® Alu tape should be used for masking various membranes. For proper air and vapour sealing with vapour barrier membranes or insulating membranes, always tape the staples even if there is a battens over the staples.

### Installation

TAFTEX® Alu tape should be applied to a dust- and grease-free, dry surface to ensure proper adhesion. Apply TAFTEX® Alu tape in the center of the seam or overlap and press firmly.
