

TAFTEX® Membrane tape is a single-sided tape for wind and watertight sealing of overlap seams and repair of damage.

Application

TAFTEX® membrane tape can be used for taping seams or repairing PE membranes. For proper air and vapour sealing of vapour control membranes, always tape off the staples even if a batten is applied over the staples.

Benefits

TAFTEX® membrane tape should be applied to a dust- and grease-free, dry surface to ensure good adhesion. Apply TAFTEX® membrane tape to the center of the seam and overlap and press firmly.

Description

TAFTEX® Membrane tape

Size

50 mm x 25 m

Quantity

10 roll / box

Article no.

1500502500

EAN code

8719128000183

Specifications

Color Green	Adhesion to steell > 25 N / 25 mm
Material DPE membrane with reinforcement	
Adhesive layer Acrylic copolymer	Protective coating Release liner
Temperature resistance - 30 °C tot + 100 °C	Processing temperature + 10 °C / + 30 °C
Storage Dark, dry, 10 °C to 23 °C
