

VASTR® Aluminium tape is a single-sided adhesive tape for wind, air, water and vapour tight sealing of overlap seams and repairing damage. VASTR® Aluminium tape is provided with a reinforcement mesh making it very strong.

Application

VASTR® Aluminium tape should be used for masking various membranes. For proper air and vapour sealing with vapour barrier membranes or insulating membranes, always tape the staples even if there is a battens over the staples.

Installation

VASTR® Aluminium tape must be applied to a dust and grease-free, dry surface to ensure good adhesion. Apply VASTR® Aluminium tape center of the seam and overlap and iron well.
